

Historic Excursions

by Forsyth Lodge

A journey through time and terrain, the Historical Excursion by Forsyth Lodge is an immersive experience that blends cultural discovery with refined exploration. This exclusive day-long or overnight experience takes you deep into the heart of India's ancient heritage, where prehistoric rock shelters, some over 30,000 years old, whisper stories of early human civilization.

Embark on a journey through time with Forsyth Lodge's curated day trip into the heart of India's ancient past. Begin with a scenic drive to the Bhimbetka Caves, a UNESCO World Heritage Site, where prehistoric rock art and natural shelters tell stories from over 30,000 years ago. Enjoy a relaxed lunch at MPT Bison, surrounded by forested serenity.

In the afternoon, explore the grand Hoshang Shah Fort, rich with tales of medieval royalty, followed by a peaceful visit to Sethani Ghat on the banks of the Narmada River. Return to the lodge by evening, carrying with you the echoes of ancient civilizations and timeless landscapes—history, nature, and elegance in perfect harmony.
